## SEE TO WHAT OUR STUDENTS HAVE TO SAY

**Nitesh Mishra (Std IX) Ranchi**  
I love to study on Skylearning.in. It's great; I get a variety of notes, eBooks, sample papers, exams and reference material, everything I need for learning.

**Samidha (Std IX) Delhi**  
Very good multimedia content which I understand very easily.

**Sarthak (Std VII) Haryana**  
There are very interesting games on Skylearning.in and I love playing them.

**Ritika Dua , (Std XII) Bhopal**  
I am very happy and thankful to Skylearning.in for the fabulous content. I had an excellent score that helped me get admission into the college I longed to be in.

## THIS IS WHAT OUR ESTEEMED EDUCATIONALIST SAY

### Testimonial

**Mrs. Rachna Pandit, Principal**  
DPS Marutikunj, Gurgaon

21st Century Education is all about student centered personalized learning. The life long learning tool has provided the students the ease of accessing learning anytime and anywhere from any device. Children find the studies more interesting now. They are also happy sharing the videos and lectures with their friends.

### Testimonial

**Mr. L V Sehgal, Principal**  
Bal Bharati Gangaram, New Delhi

One of my student reported to me that her mother is learning English communication through sky learning so that she can communicate in English with teachers. She said that her Elder sister who is an Engineering student takes the lectures online. I feel that it is a great family learning tool.

## TESTIMONIALS

### Testimonial

**Mrs. Sangeeta Bhatia**  
Principal, KIIT World School, New Delhi

I think the most powerful tool of life long learning is the learning booster and Gap analyser. This fits appropriately as a device which diagnoses learning gaps and provides students with the remediation not only of the present class but also of the gaps remaining in the previous classes.

### Testimonial

**Mrs. Alka Kapur, Principal**  
Modern Public School, New Delhi

It is a vast resource pool for teachers and students. My students are finding it interesting to go through the assessment and videos. Teachers are actually practicing a flipped classroom approach by notifying them videos and lectures to watch before hand and then later discuss in the classes. They are very happy.
